3990 Manual Pressure Control Packs

Highlights

- Self-contained for ease-of-use
- Includes precision adjustor to allow increments as fine as 0.00025 psi
- 1000 and 3000 psi models also provide absolute and negative gauge mode
- Includes metering valve for fine control
- Vent valve provides easy means to vent pressure to atmosphere
- Convenient 1/4 inch NPT connections

Description

The Series 3990 Manual Pressure Control Pack provides a convenient means of manually adjusting pressure to both the device under test and a calibration standard such as a gas piston gauge or digital pressure indicator.

The two models available are with full scales of 7 MPa (1000 psi) and 20 MPa (3000 psi).

Specifications

Control Packs

Model 3990-801	Vacuum to 1000 psi All ports ¼ in NPT female
-----------------------	-------------------------------------------------

Model 3990-803	Vacuum to 3000 psi All ports ¼ in NPT female
-----------------------	-------------------------------------------------
